NEW DVR FEATURES

Redefining what you should expect from a DVR

Samsung Techwin's newest series of DVRs offer powerful features and high-end performance that would normally be found only in enterprise class systems at a much higher cost. From the 4 channel SVR-440 to the 32 channels SVR-3200, we are redefining the performance and system capabilities available in stand-alone digital video recorders.

Enterprise class performance in a mainstream DVR real-time full 4CIF quality recording

The newest series of Samsung Techwin DVRs are capable of recording full 4CIF resolution in real-time for up to 16 channels. With the latest MPEG-4 compression technology, they will redefine what you should expect in video quality and performance from a mainstream DVR.

CIF (352 x 240)

4CIF (704 x 480)

Multi-stream support for real-time monitoring

The DVRs are capable of providing simultaneous MPEG-4 and JPEG streams. This means that they can produce E-mail event notifications with embedded pictures in addition to high quality real-time video that can be tailored to meet network requirements.

MPEG-4 Recording

High Quality Still Image Recording

Various quick & easy search modes

- **Thumbnail Search** : Users can check videos in the thumbnail image viewer and find saved videos more quickly.
- **Book Mark Function** : When users register desired playback points, they can directly play the video when needed without searching it again.
- **Calendar Search** : Videos can be easily searched for by just entering a selected date and time.

Thumbnail Search

Thumbnail Search

Powerful CMS support : Samsung Network Manager (SNM-128S)

Samsung Techwin DVRs come with a copy of the standard version of our Network Management software. This is a map-based GUI that will allow the user to monitor and control multiple DVRs from one viewing and control location. For more information on the powerful remote management capabilities of this software, see the SNM-128S/P specifications in the network products section.

SNM-128S CMS Software

Various alarm & event control

Experience more convenient surveillance through the alarm/event control of our Network Management Software. It can monitor with pop-up images and lists by receiving event/alarm signals in real time. More effective surveillance is possible by setting the specified actions, e.g. generating a warning, sound, to be performed when an alarm signal is received. The alarm control station, supports more powerful alarm/event management.

Alarm control station (Window for alarm status control only)

- Instant viewer, Live image indication
- Instant player, Recorded image playback (DVR only)
- Alarm status check and add incident response comments to events

Built-in Web Server

These DVRs have a built-in web server which will allow remote viewing, PTZ control, and playback using an Internet browser.

Web-viewer Monitor

Web-viewer Playback

SVR-3200

32 Channel Premium DVR with 960fps at 2CIF resolution

Overview

The SVR-3200 provides 32 channels of high resolution real-time video recording capability at 2CIF (N : 704 x 240, P : 704 x 288) resolution. The SVR-3200 allows the user to customize the recording setting to achieve real-time full 4CIF (N : 704 x 480, P : 704 x 576) resolution on selected channels. The SVR-3200 also comes with network monitoring software which allows the user to have remote access and control of the DVR over the network. The SVR-3200 is the perfect choice for medium to large businesses.

Features

- True real-time 960fps(N), 800fps(P) 4CIF high resolution live display
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)] [704 x 576, 704 x 288, 352 x 288(P)]
- Simultaneous MPEG-4/JPEG streaming
- Capacity for up to 4 Internal SATA HDDs
- Two front panel USB ports for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- Convenient control with a remote controller and a mouse
- Multi-language
- Thumbnail search / Calendar search / Book mark function
- 6 Monitor outputs • Built-in web server
- RS-232C, RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 16 Channels audio recording

SVR-1680C

16 Channel Premium DVR with 480fps at full 4CIF resolution

Overview

The SVR-1680C provides 16 channels of high resolution real-time video recording capability at full 4CIF (N : 704 x 480, P : 704 x 576) resolution for all 16 channels. The SVR-1680C is compatible with Samsung's powerful CMS software which gives users full control of DVR functionality and administration. The SVR-1680C includes multiple monitor outputs, fast DVD back up, and built-in web server. The SVR-1680C is the perfect choice for medium to large businesses.

Features

- True real-time 480fps(N), 400fps(P) 4CIF high resolution live display
480fps(N), 400fps(P) 4CIF high resolution video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]

SVR-1660C

16 Channel DVR with 480fps at CIF resolution

Overview

The SVR-1660C provides a cost effective solution for real-time video recording of up to 16 cameras at CIF (N : 352 x 240, P : 352 x 288) resolution. SVR-1660C is compatible with Samsung's powerful CMS software giving users the full remote control of the DVR functionality and administration. The SVR-1660C includes advanced features such as multiple monitor outputs, fast DVD back up, and built-in web server.

Features

- True real-time 480fps(N), 400fps(P) digital image display
- 480fps(N), 400fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)] [704 x 576, 704 x 288, 352 x 288(P)]
- Simultaneous MPEG-4/JPEG streaming
- Capacity for up to 4 Internal SATA HDDs
- Two front panel USB ports for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- Convenient control with a remote controller and a mouse
- Multi-language
- Thumbnail search / Calendar search / Book mark function
- 3 Monitor outputs • Built-in web server
- RS-232C, RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 16 Channels audio recording
- PTZ control using coax cable

DVR

SVR-1645

16 Channel DVR

Overview

The SVR-1645 is a high performance digital video recorder with 16 camera inputs. The DVR comes with a recording rate of 480/400 frames per second (NTSC/PAL) and features CMS management and DVD writer as standard features. The DVR come with smart thumbnail, and bookmark search capabilities, it is easy to install and operate, and can be connected easily to a SCC-3100A keyboard for advanced control.

Acknowledged as 'Recommended'

SVR-960C

9 Channel DVR

Overview

The SVR-960C offers 9 channels of high resolution video real-time recording capability and powerful integrated network management of an unlimited number of DVRs. It comes with smart thumbnail, and bookmark search capabilities, fast DVD back up and easy control with intuitive GUI and mouse interface.

Features

- True real-time 270fps(N), 225fps(P) digital image display
- 270fps(N), 225fps(P) digital video recording
- MPEG-4 Compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)] [704 x 576, 704 x 288, 352 x 288(P)]
- Capacity for up to 2 Internal SATA HDDs
- Two front panel USB ports for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- Convenient control with a remote controller and a mouse
- Multi-language
- 10/100 base-T network interface capability
- Thumbnail search / Calendar search / Book mark function
- 3 Monitor outputs
- Built-in web server
- RS-232C, RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 9 Channels audio recording
- PTZ control using coax cable

SVR-945

9 Channel Compact DVR

Overview

The SVR-945 is a compact and affordably priced 9 channel DVR that can record high quality images in real time with highly efficient advanced MPEG-4 compression. It is equipped with a wide range of smart functions for user convenience and system reliability such as thumbnail search modes, ATM/POS text recording, and easy control with intuitive GUI and mouse interfaces. Designed as a compact yet feature-rich solutions, it can easily and conveniently be installed in virtually any location.

Features

- True real-time 270fps(N), 225fps(P) digital image display
270fps(N), 225fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- Capacity for up to 2 Internal SATA HDDs
- Two front panel USB ports for easy back up
- ATM/POS transaction data recording and search
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- Convenient control with a remote controller and a mouse
- Multi-language
- 10/100 base-T network interface capability
- Thumbnail search / Calendar search / Book mark function
- 3 Monitor outputs
 - Built-in web server
- RS-232C, RS-485/422
 - Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording
- Compact design

SVR-940

9 Channel DVR

Overview

The SVR-940 is a 9 channel digital video recorder that offers high resolution real-time display and recording performance. It comes with an array of features including flexible back up via internal DVD-R and USB port, multi-language OSD, remote controller, and easy PTZ control with front panel buttons.

Features

- True real-time 270fps(N), 225fps(P) digital image display
120fps(N), 100fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- Capacity for up to 2 Internal HDDs
- Front panel USB port for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Integrated network multi-view, multi-users remote viewing
- Convenient control with a remote controller
- Multi-language
- 10/100 base-T network interface capability
- RS-232C, RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording

DVR

SVR-480

NEW

4 Channel Compact DVR

Overview

The SVR-480 is a 4 channel standalone digital recording device that records high resolution videos in full 4CIF based on MPEG-4 compression. With enhanced MPEG-4 compression capabilities, this recorder supports high resolution images as well as saves and plays high resolution video feed from up to 4 channels at maximum 120fps(N)/100fps(P). This recorder also helps establish effective central management for DVRs and network systems, as it comes with a powerful CMS program. The high-speed DVD back up option allows easier data transfers and storage, and a variety of enhanced search options such as Thumbnail and Bookmark are provided to search and play videos more quickly and accurately.

Features

- True real-time 120fps(N), 100fps(P) digital image display
120fps(N), 100fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- Simultaneous MPEG-4/JPEG streaming
- Capacity for up to 2 Internal SATA HDDs
- Front panel USB port for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- Convenient control with a remote controller
- Multi-language
- 10/100 base-T network interface capability
- RS-232C, RS-485
- Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording

SVR-470 NEW

4 Channel DVR with Built-in LCD

Overview

The SVR-470 is a 4 channel standalone digital video recorder with a built-in LCD. With H.264 compression, this video recorder transfers and records high resolution images at 120fps in real time. USB terminals facilitate convenient data back up while the front LCD window enables easy monitoring. A variety of user-friendly options including a GUI menu, multiple language OSD, ATM-POS text saving options, and remote control are provided along with an exclusive Network Manager program.

Features

- True real-time 120fps(N), 100fps(P) digital image display
120fps(N), 100fps(P) digital video recording
- H.264 & Convenient GUI Menu
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- Capacity for up to 1 Internal HDD
- Front panel USB port for easy back up
- 3.5" LCD Window for Easy Monitoring
- Powerful CMS support as standard (SVM-S1)
- Convenient control with a remote controller
- Multi-language
- 10/100 base-T network interface capability
- RS-232C, RS-485
- Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording

DVR

SVR-450

4 Channel DVR

Overview

The SVR-450 is a 4 channel digital video recorder designed to be used as the security device in small shops, convenience stores, banks, ATMs, etc. It uses an embedded operating system, securing system performance and safety. It can record up to 120/100 (NTSC/PAL) frames per second and provides various features such as. motion detection, PTZ (Pan, Tilt and Zoom) control, password setting, real-time voice data storage, and up to 10,000 event lists and log file storage.

Features

- True real-time 120fps(N), 100fps(P) digital image display
120fps(N), 100fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- Capacity for up to 1 Internal HDD
- Front panel USB port for easy back up
- DVD writer is included as standard
- ATM/POS transaction data recording and search
- Integrated network multi-view, multi-users remote viewing
- Convenient control with a remote controller
- Multi-language
- 10/100 base-T network interface capability
- RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording

SVR-440

4 Channel Compact DVR

Overview

The SVR-440 is an ideal solution for applications that require a simple, low cost, and easy-to-use DVR. It uses an embedded operating system and is quick and easy to install and configure. Unlike other low cost solutions, the SVR-440 offers great picture quality and features like 4 channels of audio recording.

Features

- True real-time 120fps(N), 100fps(P) digital image display
120fps(N), 100fps(P) digital video recording
- MPEG-4 compression
- High resolution image [704 x 480, 704 x 240, 352 x 240(N)]
[704 x 576, 704 x 288, 352 x 288(P)]
- 160GB 1 HDD internal capacity
- Front panel USB port for easy back up
- Integrated network multi-view, multi-users remote viewing
- Convenient control with a remote controller
- Compact size and refined appearance
- Multi-language
- 10/100 base-T network interface capability
- RS-485/422
- Pan / Tilt / Zoom support (Multi-protocol)
- 4 Channels audio recording

SVS-5R/5E

RAID 5 Unit / HDD Extension Unit

Overview

The SVS-5R/5E external hard drive offers extra data storage exclusively for DVRs. Designed as a 19-inch rack mount unit, it can be mounted in a cabinet along with DVR units. With SATA II it supports a maximum speed of 3.0Gbps to save and play video. The SVS-5R supports RAID configurations to protect data from disk damage and improve performance by distributing data evenly over two or more disks.

SVS-5R

SVS-5E

Features

SVS-5R

- 1U 19-inch rack case
- Data transfer speed : Up to 3.0Gbps (SATA II)
- Available SATA HDD : Up to 4 (4TB)
- Supports RAID 0, 1, 0+1, 5
- Hot-Swappable Disk Drive Bays
- Front LCD for RAID status display
- USB port for RAID settings
- Alarm for errors

SVS-5E

- 1U 19-inch rack case
- Data transfer speed : Up to 3.0Gbps (SATA II)
- Available SATA HDD : Up to 4 (4TB)
- Expandable for more storage

Technical Specifications

	SVS-5R	SVS-5E
Transmission Speed	Up to 3.0Gbps (SATA II)	
Maximum Capacity	Up to 4TB	
Internal HDD	Up to 4 SATA HDDs (Support Hot-Swap function)	Up to 4 SATA HDDs
RAID	RAID 0, 1, 0+1, 5	N/A
eSATA	1 External SATA ports for DVR connection	
USB	USB 2.0, RAID configuration only	N/A
Operating Temperature	+5°C ~ +45°C (+41°F ~ +113°F)	
Operating Humidity	20%RH ~ 70%RH	
Input Voltage	115 ~ 230V AC ±10%, 50/60 Hz, Autoranging	
Dimensions (WxHxD)	482 x 44 x 433mm (19" x 1.7" x 17")	484 x 44 x 450mm (19.1" x 1.7" x 17.7")
Weight	Approx. 6.4Kg (14.1 lb)	Approx. 5.6Kg (12.3 lb)
Rack Mount Kit	For mounting one unit in an EIA 19-inch rack	
Supported Devices	SVR-3200/1680C/1660C/1645/960C/945	
Certifications	FCC (Class A), UL/cUL listed, CE (Class A)

NETWORK SOLUTION

iPOLiS - High Image Quality Network Security Solution

*Clear Imaging!
Real Time!
Easy Control!*

Samsung Techwin's innovative IP based video security products offer convenient solutions for remote applications. iPOLiS security solutions deliver real time audio/video monitoring directly to your web browser. With high-performance MPEG-4/JPEG compression, bi-directional audio, and choices of network protocols, iPOLiS conveniently secures your site. It is also very easy for users to assign an IP address, or connect the camera to the network.

NETWORK TERMS & FEATURES

Real-time surveillance over the Internet at any time...

Samsung Techwin's innovative network products are perfect and convenient solutions for remote surveillance over the internet. The network units utilize the most efficient video compression technology for faster transmission and high quality images. Now you can enjoy real images and video streams in real time from anywhere through the web at any time. There is no need for PC or any additional devices. Wherever there is an LAN connection and modem, you can keep an eye on the site. Assigning an IP address and connecting the camera to the network is very easy.

Infinite uses for business applications !

The network products are equipped with a built-in operating system based on the high performance web server, so that you can put the camera directly on the internet. They can be used easily for remote surveillance, video conferencing, personal website hosting, small business website hosing, real time video on your website, video chatting and more. These consist of network servers and network cameras. They can be installed onto the Internet or local networks within minutes.

Furthermore vivid and high quality video can be enjoyed by up to 100 simultaneous users. It also has 4.5MB of configurable flash memory, FTP function for image archiving, and supports two way audio. And they can be easily integrated into your current security systems. The advanced MPEG-4 image compression technology provides clear pictures that are up to 300% smaller than comparable JPEG images.

The following are the main features of the Samsung's network units. They uses MPEG-4 or JPEG codec technology to allow high compression rates and clear picture quality by allowing for high frame rates to be transmitted and are designed for easy installation and set-up, maintenance and repair. The products also transmit real-time video and Bi-direction audio, allows for users to record and play using any viewer on their PC. Motion Detection creates connection on an alarm, and allows captured images to be sent through email or FTP.

Furthermore, they support NTSC and PAL cameras, and allow for multiple video sizes or picture options for the applicable models.

MPEG-4/JPEG compression support

With the selective application of MPEG-4 and JPEG compression formats, the best image quality can be provided flexibly, depending on the available transmission bandwidth.

Open standards environment

Supporting TCP/IP networking, SMTP e-mail, HTTP and other Internet-related protocols : the network products can be used in mixed operating system environments, such as, Windows. It integrates easily into other www.Intranet applications and CGI scripts.

Embedded Linux operating system

Network product adopt cutting-edge technologies of digital image processing & networking. Network products incorporate a high performance CPU (32bit RISC), running embedded Linux, it allows for more than 100 users to be connected to the network products simultaneously.

Simple administration

Using a standard Web browser, you can configure and manage Web-product directly from its own Web pages. When a new firmware release becomes available, you can simply upgrade all of your network products remotely over the network.

RJ-45

The RJ-45 connector is commonly used for network cabling and for telephone applications. It's also used for serial connections in special cases.

Multi-stream support for real-time monitoring

The SNC-570 uses the Dual Codec (MPEG-4, JPEG) and the Transcoder techniques, all 6 streams are transferred simultaneously and independently. Using such techniques, each client may receive or play 6 individual streams according to their particular choice or as a whole.

Dual stream

Dual stream supports MPEG-4 and JPEG dual output for simultaneous live monitoring and high resolution recording, which reduces bandwidth demands for low bandwidth users and allows more information to be transmitted over the network than single-streaming products.

NETWORK TERMS & FEATURES

Real-time transmission of VGA High-resolution images at 30fps

iPOLiS network products can transmit distortion free images in all resolution and VGA high resolution images at up to 30fps.

CMS integrated management (Samsung Network Manager)

iPOLiS network products support the CMS for integrated network management. The Samsung Network Manager is a powerful centralized management solution that monitors multiple sites with video, audio and alarm signals over the network. It can monitor up to 128 channels from anywhere in the world at the same time. The users can check the event with more ease via enhanced event/alarm functions such as List, Map, Beeper, Live Image, and Tree modes. It also supports enhanced map viewer for smart network monitoring and convenient search by thumbnail, event, or text category.

Network Manager

Map Viewer

- Convenient Centralized Management for DVR, Network product
- Max. 128 Channel Simultaneous Realtime Monitoring
- Various Event Control using event exclusive panel
- Instant Playback with Thumbnail / Calendar / Timeline / Text search
- Easy Monitoring with Graphic MAP Viewer

PoE (Power over Ethernet) support

Since power is supplied through the LAN cables, there will be less complicated cabling and the installation cost will be substantially reduced (IEEE 802.3af).

SDK support

iPOLiS branded product lines provide SDK for the third-party developers to integrate their software with Samsung Techwin IP Products.

Real-time surveillance with Web viewer

With the support of the Web viewer that can be connected through the Internet, the user can monitor sites anytime, anywhere.

Dynamic IP registration and DDNS support

Even inexperienced users can easily configure network settings and get a domain name by connecting to www.samsungipolis.com, as a stable Dynamic IP is provided.

SD memory card slot

The SNC-570, SND-560 are compatible with SD memory cards allowing users to use a SD memory card as local storage to store all the events that occurred, or used as a back up. This allows the user to playback all the events using Samsung Network Manager even if the software network recorder is not available.

Network protocol

A protocol is a set of rules or agreed upon guidelines for communication. These protocols have been established by international standards bodies and are used in almost all platforms and around the globe to ensure that all devices on the Internet can communicate successfully. The iPOLiS products support a wide variety of protocols : RTP/UDP, RTP/MULTICAST, RTSP, HTTP, TCP/IP, FTP, SMTP, DHCP, DNS, DDNS.

SNR-6400/3200

NEW

64/32 Channel High Performance Network Video Recorder

Overview

64/32 Channel Premium High Performance Network Video Recorder The SNR-6400/3200 is our premium network recording solution. Featuring MPEG-4 / JPEG dual codecs, this network recorder records full 4CIF high resolution images at 1,280fps in real time, and saves high performance images from a maximum of 64 or 32 network channels, also in real time. Embedded with our user-friendly Web Viewer and CMS, this video recorder enables you with easy and advanced monitoring of multiple network channels. Using existing network cabling, the SNR-6400/3200 is cost effective to install.

iPOLiS

Features

- Real-time MPEG-4/JPEG dual codec
- Full 4CIF high resolution images at 1,280fps(N), 1,152fps(P) in real-time (SNR-6400)
Full 4CIF high resolution images at 480fps(N), 480fps(P) in real-time (SNR-3200)
- Large-sized default HDD with 1TB data capacity
- Intuitive Thumbnail search / Bookmark search & convenient GUI menu
- Supports multiple video streaming & optimal quality for real-time network monitoring
- Supports NAS & RAID 5 (SNR-6400)
- Intuitive system monitoring via front LCD window
- Powerful CMS support as standard (SVM-S1, SNM-128S/P)
- AXIS network camera support (VAPIX)

Supports MPEG-4/JPEG Dual Codec

The SNR-6400/3200 supports both MPEG-4 and JPEG compression, recording video feeds from the network cameras without changing file formats.

Maximized Capacity

The SNR-6400/3200 provides a maximum of 20TB disk capacity, which is more than enough to save high resolution videos from multiple channels.

- Supports maximum 4 internal HDD (1TB internal space + 3 additional HDDs)
- Supports external eSATA 4 port (16TB external space)
- Supports NAS (Network Attached Storage)

Outstanding System Reliability

The SNR-6400/3200 supports RAID 5 to keep data safely stored across multiple disks and protect against unexpected disk failures. More than reliable for data protection, it also supports a large data storage capacity.

RAID (Redundant Array of Inexpensive Disks)

RAID 5 supports distributed data storage and data recovery in the event of an HDD disk failure.

Convenient Web Viewer UI

The SNR-6400/3200 Web Viewer with its enhanced user interface is accessible to everyone including new users.

Playback

With various search options by the date and time, events, and calendar, this network video recorder enables a quick, convenient video searches.

Monitoring

Various monitoring options are available : live monitoring of a maximum of 64 channels, Pan/Tilt/Zoom control, and managing sensors and alarms.

Easy Setup

All menus are easy to setup, check, and modify. Setting up a network, HDDs, and cameras couldn't be easier.

	Monitoring	CMS Software (SVM-S1, SNM-128S/P), Built-in web server	
Storage	Maximum Capacity	Up to 20TB using external storage option	
	RAID	Normal, RAID 1, RAID 5	Normal, RAID 1
	Internal HDD	Up to 4 SATA HDDs	
	External HDD	Up to 4 expansion bay (Up to 4 HDD each)	
	NAS	Up to 4 NAS connection (CIFS/Samba)	
Security	Password Protection	2 User level	
INTERFACE			
Monitors	DOT Matrix LCD	20 x 2 Status display	
Alarm	Inputs	Screw terminal 2 inputs, NO/NC	
	Outputs	Screw terminal 2 relay outputs, NO/NC	
	Remote Notification	Notification via e-mail	
Connections	Ethernet	3 (RJ-45 100/1000 Base-T), 1 (RJ-45 100Base-T)	
	Serial Interface	RS-232C	
	USB	2 USB 2.0 ports (Firmware upgrade)	
	eSATA	4 External SATA ports	
Dome Protocols	Supported PTZ Cameras	Samsung Techwin network products, AXIS network cameras (VAPIX)	
GENERAL			
Electrical	Input Voltage	100 ~ 240V AC $\pm 10\%$, 50/60Hz, Auto ranging	
	Power Consumption	Max. 110W (With 1X HDD)	Max. 130W (With 4X HDD)
Environmental	Operating Temperature	+5°C ~ +40°C (+41°F ~ +104°F)	
	Operating Humidity	0% ~ 60%RH	
Mechanical	Dimensions (WxHxD)	430 x 88 x 501mm (16.92" x 3.46" x 19.73")	
	Weight (4X Hard Disks)	Approx. 11Kg (24.25 lb)	
	Rack Mount Kit	For mounting one unit in an EIA 19 inch rack	
Language (LCD)		English	
Certifications		FCC (Class A), cUL/UL listed, CE (Class A)

System Configuration

SNS-400/100

4/1 Channel Network Video Encoder

Overview

The SNS-400/100 MPEG-4/JPEG network video encoder connects 4/1 analogue CCTV video camera to an IP network. The new server is both MPEG-4 and JPEG compatible. MPEG-4 makes viewing video smooth and seamless and when using JPEG images can be transmitted at up to 120fps(N) / 100fps(P), 30fps(N) / 25fps(P). The video encoder uses an embedded linux operating system to take your video signal and broadcast it over any of the supported protocols, including TCP/IP, DHCP, HTTP, SMTP, FTP, DDNS. Plus, the unit is easy to setup and control through an available RS-485 port.

iPOLiS

Features

- Real-time MPEG-4/JPEG compression
- Max. CIF 120fps(N) / Max. CIF 100fps(P) image transmission : SNS-400
Max. VGA 30fps(N) / Max. VGA 25fps(P) image transmission : SNS-100
- Bi-directional audio support
- Stored event image with USB memory devices
- High resolution image : 704 x 480, 704 x 240, 352 x 240(N)
704 x 576, 704 x 288, 352 x 288(P)
- Static / Dynamic IP support
- Remote Pan / Tilt / Zoom control (RS-232C, RS-485/422)
- TCP/IP, DHCP, HTTP, DDNS etc protocol
- FTP server & E-mail sending
- Network management software (SVM-S1, SNM-128S/P)
- 4 sensor input, 4 alarm output : SNS-400
2 sensor input, 2 alarm output : SNS-100
- Voltage : 12V DC

Dimensions

SNC-1300 NEW

1/3" High Performance Megapixel Network Camera

Overview

The SNC-1300 is our new high performance megapixel network camera equipped with a 1.32 megapixel progressive CCD sensor to deliver a maximum of 1,280 x 960P high resolution images. It also supports MPEG-4 / JPEG dual codes to achieve both a high data compression ratio and clear graphics. Its SD memory card slot enables easy file storage and back up. This high performance network camera is included with a variety of supplementary options such as PoE for easy installation.

iPOLiS

Features

- 1.32 Megapixel, 1/3" Progressive Scan CCD
- Real-time MPEG-4/JPEG dual codec
- Max.VGA 25fps image transmission
- Multi-stream and Multi-cast capability
- De-interlacing support, Power over Ethernet
- SD memory slot for stored event image & back up
- High resolution image : 1,280 x 960P, 1,280 x 720P, 4CIF, CIF
- Static / Dynamic IP support / Ethernet 10/100 Base-T capability
- Support TCP/IP, DHCP, HTTP, DDNS, RTP/UDP and RTSP protocols
- FTP server & E-mail sending, Continuous FTP data transmission
- A composite output for installation
- Day & Night with ICR (Infrared Cut filter Removal)
- Min. illumination of 0.5Lux@F1.2 (Color)
0.05Lux@F1.2 (B/W)
- Dual voltage : 24V AC / 12V DC

Dimensions

Unit : mm (inch)

Technical Specifications

	SNC-1300
VIDEO	
Imaging Device	1/3" Progressive Scan CCD
Total Pixels	1,348(H) x 976(V), 1.32M pixels
Effective Pixels	1,296(H) x 966(V), 1.25M pixels (Equivalent to 800TV lines Color, 800TV lines B/W)
Scanning System	Progressive
Min. Illumination	Color : 0.5Lux (50 IRE@F1.2)
(Analog Video Output)	B/W : 0.05Lux (50 IRE@F1.2)
S / N (Y signal)	50dB

Motion Detection	On / Off (Output via communication)
Privacy Masking	On / Off (Area selectable)
Sens-up (Frame Integration)	Auto / Off (Selectable limit ~ 128X)
Gain Control	High / Low / Off
White Balance	ATW / AWC / Manual
Lens Control	DC / Video / Manual
PERFORMANCE	
Resolution	1,280 x 960P, 1,280 x 720P, 4CIF, CIF
Encoding	Compression MPEG-4 / JPEG dual codec
Encode Rate	Up to 20fps@1,280 x 960P, Up to 25fps@1,280 x 720P
Network	Transmission Speed Up to 100Mbps
	Max. Remote Users 5 Simultaneously (Depending on image quality)
	Protocol Support RTP/UDP, RTP/TCP, RTSP, RTCP, IGMP, TCP/IP, DHCP, DNS, DDNS, HTTP, SMTP, FTP, PPPoE and NTP
Security	Password Protection 5 User level
INTERFACE	
Monitor	Output 1 CVBS (For installation)
	Input 1 Line / MIC in, Mono, 1Vpp, 5.6K ohm
Audio	Output 1 Line out, 1Vpp
	Compression ADPCM
	Sampling Rate 8KHz
Alarm	Inputs Terminal 1 input, NO/NC
	Outputs Terminal 1 output, NO/NC
	Remote Notification Via e-mail or FTP
Connections	Ethernet RJ-45 10/100 Base-T
	PTZ Control Interface RS-485
Storage	SD(SDHC) Memory Stored event image, Back up
GENERAL	
Input Voltage	Dual (12V DC/ 24V AC), PoE (IEEE 802.3af)
Power Consumption	Max. 8.5W
Operating Temperature	-10°C ~ +50°C (+14°F ~ +122°F)
Operating Humidity	30% ~ 80% RH
Dimension (WxHxD)	74 x 61 x 152mm (2.91" x 2.4" x 5.98")
Weight	580g (1.28 lb)
Lens Mount	C / CS
Certifications	FCC (Class A), UL/cUL listed, CE (Class A)

SNC-570

1/3" High Performance WDR Network Camera

Overview

The SNC-570 is the newest edition of Samsung Techwin's network ready feature-rich camera using the latest SV-IV DSP chipset and the advanced network codec chipset allowing for high quality images and multiple network capabilities at the same time. It supports MPEG-4 and JPEG dual codec capability, a de-interlacing feature and a SD memory card slot for event data recording, and back up. It also ensures users enjoy real-time video monitoring in any circumstances with the excellent 2 codec and 6 transcoder streaming solution. The SNC-570 offers both Dual voltage plus Power over Ethernet capability making it easy to install for user.

Acknowledged as 'Recommended'
by Benchmark Magazine's Independent Testing

iPOLIS

SV-IV

SSNR II

Features

- Real-time MPEG-4/JPEG dual codec
- Max.VGA 30fps(N) / Max.VGA 25fps(P) image transmission
- Multi-stream and Multi-cast capability
- De-interlacing support, Power over Ethernet
- SD memory slot for stored event image & back up
- Capable of detecting object appearing and disappearing
- High resolution image : 704 x 480, 352 x 240, 176 x 120(N)
704 x 576, 352 x 288, 176 x 144(P)
- Static / Dynamic IP support / Ethernet 10/100 Base-T capability
- Support TCP/IP, DHCP, HTTP, DDNS, RTP/UDP and RTSP protocols
- FTP server & E-mail sending, Continuous FTP data transmission
- Network management software (SVM-S1, SNM-128S/P)
- High resolution of 560TV lines of a composite output
- Day & Night with ICR (Infrared Cut filter Removal)
- Removed noise & Ghost images with SSNR II
- Powerful 128X WDR function : Max. 52dB
- Min. illumination of 0.3Lux@F1.2 (Color)
0.01Lux@F1.2 (B/W)
0.001Lux@F1.2 (Sens-up)
- Dual voltage : 24V AC / 12V DC, PoE

SND-560

1/3" High Performance WDR Network Dome Camera

Overview

The SND-560 network camera uses the latest SV-IV DSP and advanced network codec chipset to deliver high-quality images and multiple network capabilities. It offers 6 different types of image resolutions and qualities to transfer, depending on the local network environment, and supports intelligent image analysis as well as SD memory. Integrated with a vari-focal lens and 3-axis dome, this camera is easy to install.

Features

- Real-time MPEG-4/JPEG dual codec
- Max.VGA 30fps(N) / Max.VGA 25fps(P) image transmission
- Multi-stream and Multi-cast capability
- De-interlacing support, Power over Ethernet
- SD memory slot for stored event image & back up
- Capable of detecting object appearing and disappearing
- High resolution image : 704 x 480, 352 x 240, 176 x 120(N)
704 x 576, 352 x 288, 176 x 144(P)
- Static / Dynamic IP support / Ethernet 10/100 Base-T capability
- Support TCP/IP, DHCP, HTTP, DDNS, RTP/UDP and RTSP protocols
- FTP server & E-mail sending, Continuous FTP data transmission
- Network management software (SVM-S1, SNM-128S/P)
- A composite output for installation
- Day & Night with ICR (Infrared Cut filter Removal)

SND-460V

1/3" High Performance Vandal-Resistant Network Dome Camera

Overview

The SND-460V high resolution network Vandal resistant dome camera achieves vivid graphics at 580TV lines resolution. This camera delivers noise-free images at ultra low light levels of 0.15Lux. Encased in a sturdy aluminum chassis, its durability is unparalleled. With MPEG-4/JPEG dual codecs, it transfers VGA high resolution videos at 30fps in real time. Its video analysis system is highly intelligent, capturing all objects coming in and out of view. In addition, a multiple language OSD and DIS (Digital Image Stabilization) options are provided for an enhanced user experience.

Features

- Real-time MPEG-4/JPEG dual codec
- Max.VGA 30fps(N) / Max.VGA 25fps(P) image transmission
- Multi-stream and Multi-cast capability
- De-interlacing support, Power over Ethernet
- SD memory slot for stored event image & back up
- Capable of detecting object appearing and disappearing
- High resolution image : 704 x 480, 352 x 240, 176 x 120(N)
704 x 576, 352 x 288, 176 x 144(P)
- Static / Dynamic IP support / Ethernet 10/100 Base-T capability
- Support TCP/IP, DHCP, HTTP, DDNS, RTP/UDP and RTSP protocols
- FTP server & E-mail sending, Continuous FTP data transmission
- Network management software (SVM-S1, SNM-128S/P)
- A composite output for installation
- Day & Night with ICR (Infrared Cut filter Removal)
- Removed noise & Ghost images with SSNR II
- HLC (Highlight Compensation) • IP66 Protection against rain & wind
- Rugged, high impact polycarbonate dome cover and aluminum body
- Min. illumination of 0.15Lux@F1.2 (Color)
0.01Lux@F1.2 (B/W)
0.0006Lux@F1.2 (Sens-up)
- Dual voltage : 24V AC / 12V DC, PoE

SNP-3300A

1/4" 30X Low Light WDR PTZ Network Dome Camera

Overview

The SPD-3300A is a network ready high performance 30X PTZ camera that incorporates the SV-III DSP engine at its heart. It's equipped with a 30X (3.3 ~ 99mm) optical zoom lenses and a 8X digital zoom, which gives a total zoom capability of up to 240X. It provides seamless network integration coupled with Samsung Techwin's high imaging quality giving you the best network camera solutions.

Features

- Real-time MPEG-4/JPEG compression
- Max. VGA 30fps(N) / Max. VGA 25fps(P) image transmission
- Area zoom support
- High resolution image : 704 x 480, 704 x 240, 352 x 240(N)
704 x 576, 704 x 288, 352 x 288(P)
- Sensor 4 in / 2 out, bi-directional audio support
- Static / Dynamic IP support / Ethernet 10/100 Base-T capability
- TCP/IP, DHCP, HTTP, DDNS etc protocol
- FTP server & E-mail sending, analog output support
- Network management software (SVM-S1, SNM-128S/P)
- Powerful 30X optical zoom (3.3 ~ 99mm) and 8X digital zoom
- High resolution of 520TV lines of a composite output
- Day & Night with ICR (Infrared Cut filter Removal)
- Powerful 126X WDR function : Max. 52dB
- Min. illumination of 0.4Lux@F1.6 (Color)
0.08Lux@F1.6 (B/W)
0.003Lux@F1.6 (Sens-up)
- Programmable 128 presets
- Voltage : 24V AC

SNP-1000A

1/4" 10X High Resolution PTZ Network Dome Camera

Overview

The SNP-1000A is a network ready indoor variable speed PTZ camera system that is powerful yet economical. It provides 10X zoom capability with a rich set of system features that make it the right choice for a wide variety of indoor applications. It provides both MPEG-4 and JPEG compression coupled with real-time image transmission making an ideal solution for your network video security system.

SVM-S1 NEW

Centralized Video Management Software

Overview

The SVM-S1 (Samsung Video Management Standard 1)'s CMS software is specifically designed to centrally manage our network products. Capable of monitoring up to 64 channels in real time, this program helps establish an effective network management system with its PTZ control, various events, alarm managing options, and two-way audio as well as graphic maps for convenient monitoring.

iPOLiS

Features

- Up to 64 channels real-time live monitoring
- Support up to 4 VGA output (2 mains / 1 map / 1 playback)
- Register 2,047 devices and control up to 64 stream simultaneously
- PTZ, bi-directional audio, sensor / relay
- Digital zoom on live monitor / playback
- Graphic MAP image support

Various remote control supports

The administrator can perform real time screen surveillance, and control PTZ, bi-direction audio and the relay of each piece of equipment.

Mapping Support

The SVM-S1 offers a 2D graphical view of your secured area with layering capability allowing users to define various levels of an area such as national map, states, cities, buildings, and sites. The operator can drill down to the map layer to get the actual location of the alerts. In addition, the live video image or recorded image corresponding to the events can be easily checked with a click of a mouse.

Fast and simple playback and search function

The SVM-S1 gives the ability to quickly search and playback by providing various search options such as time, event, and thumbnail search (depend on devices). The SVM-S1 also provides the ability to record the searched data on to the local computer.

SNM-128P

Centralized Video Management Software

Overview

The SNM-128P (Network Manager Professional) CMS software helps to efficiently manage systems by centrally operating Samsung Techwin DVRs and networking products on the same network. It consists of 3 programs. Viewer, Player, and Map Viewer, and provides a variety of convenient video monitoring features, PTZ control, versatile event and alarm controls, two-way audio, recorded and live video monitoring, video replay, and maps.

iPOLiS

Features

- Up to 128 channels real-time live monitoring
- Support up to 6 VGA output
- Register unlimited devices and control up to 128 stream simultaneously
- PTZ, bi-directional audio, sensor / relay
- Instant video display on alarm and event
- Graphic MAP image support
- Search by time / date and text
- Instant manual recording up to 10 minutes

Mapping support

The SNM-128P offers a 2D graphical view of your secured area with layering capability allowing users to define various levels of an area such as national map, states, cities, buildings, and sites. The operator can drill down to the map layer to get the actual location of the alerts. In addition, the live video image or recorded image corresponding to the events can be easily checked with a click of a mouse.

Up to 6 VGA monitor outputs supported

The SNM-128P supports the Microsoft Windows' multi-monitor feature allowing users to use up to 6 monitors to view Live, Playback, Mapping, and Events simultaneously without switching between applications from their PC.

SNM-64P

Centralized Video Management Software

Overview

The SNM-64, Samsung Network Video Management Software fully integrates multiple devices and register unlimited devices. Not only the SNM-64 gives you the ability to integrate IP video products, it lets you create a hybrid video security system, integrating analogue video and IP-based digital video devices together. Its unique functionality helps users leverage their existing analogue infrastructure.

iPOLiS

Features

- Up to 128 channels real-time live monitoring
- Support up to 3 VGA output
- Register unlimited devices and control up to 128 stream simultaneously
- PTZ, bi-directional audio, sensor / relay
- Instant video display on alarm and event
- Graphic MAP image support
- Search by time / date and text
- Instant manual recording up to 10 minutes

Various alarm & event control

Experience more convenient surveillance through the alarm/event control of the SNM-64P. The SNM-64P can monitor with pop-up images and lists by receiving event/alarm signals in real time. More effective surveillance is possible by setting the specified actions, e.g. generating warning sound, to be performed when an alarm signal is generated. The alarm control station, which is provided additionally, supports more powerful alarm/event management.

Alarm control station (Window for alarm status control only)

- Instant viewer, Live image indication
- Instant player, Recorded image playback (DVR only)
- Alarm status check and description phrases writing
- Transmitting image files via FTP server and sending e-mails

SNR-32A/16A/9A

32/16/9 Channel Network Recording Software

Overview

The SNR-32A/16A/9A is a feature-rich network recording software. It can record up to 32 units of IP products and is compatible with the SNM-64S/P, Samsung Network Manager. The network recorder offers great convenience and flexibility in recording real-time videos via the internet.

iPOLiS

Features

- Record up to 32 audio / video streams
- Record up to 480fps at CIF resolution
- Record up to full 4CIF resolution
- Ability to view live display and play back recorded video on single channel
- User IP filtering
- Unlimited product registration

MPEG-4/JPEG dual codec

The SNR-32A/16A/9A uses MPEG-4 and JPEG compression so that users can select a compression algorithm according to their circumstances. Users can select a resolution (4CIF, 2CIF, CIF), picture quality and frame rate variously according to traffic environment of network, so real-time monitoring is available.

MPEG-4

JPEG

Max. 480fps real-time recording, Various recording modes

High resolution images of maximum 480fps that network unit sends can be stored. It also supports a selection of recording modes such as 4CIF (704 x 480), 2CIF (704 x 240), CIF recording, normal, schedule, and event, motion detection etc., ensuring optimized network video recording.

SAMSUNG

SCC-3100A

System Controller for PTZ Dome Cameras, DVRs and Matrix Switchers

Overview

The Samsung SCC-3100A is a keyboard controller capable of controlling up to 255 PTZ dome cameras, DVRs, matrix switchers and receivers simultaneously. It offers powerful system compatibility with multiple protocols. And its intuitive keypad, large LCD window and ergonomic design allows more ease and convenience of use.

Features

- Control of both PTZ dome cameras, DVRs and matrix switchers
- Centralized control of up to 255 units from a single controller
- Up to 16 controllers may be connected to a system
- Ergonomic design and easy-to-use keypad
- 3D joystick control of PTZ functions
- Large character LCD display (20 x 4 lines)
- Multi-protocol support
- Included power supply : 12V DC, 700mA

Dimensions

Unit : mm (inch)

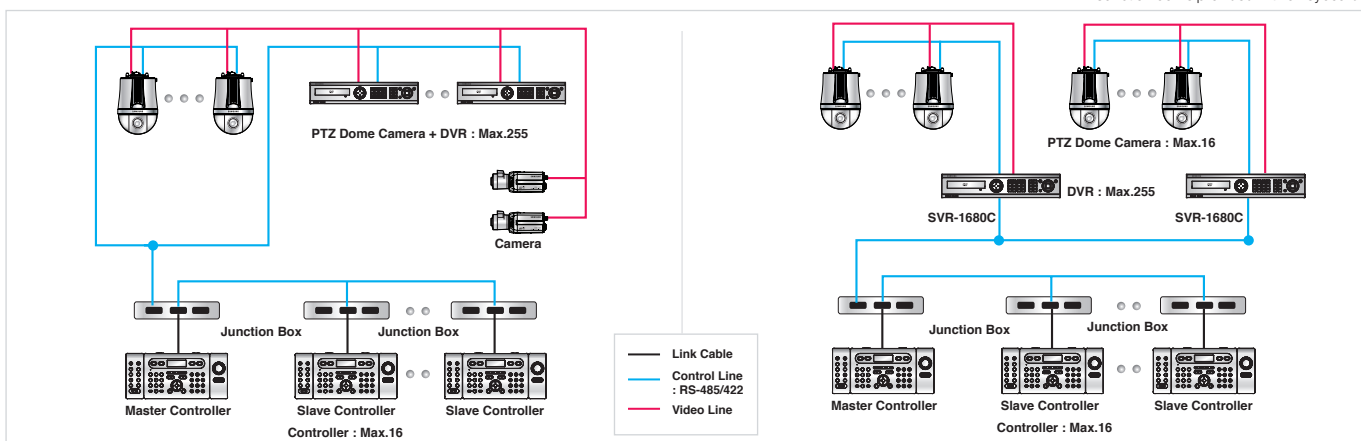

Technical Specifications

SCC-3100A		
Included	Input	100V AC ~ 240V AC (50/60Hz)
Power Supply	Output	12V DC, 700mA
Connector		3 Port
LCD Display		20 x 4 Character LCD
PTZ Control		Joystick (3-axis twist zoom)
Sub Controller		Max. 16 unit connection
Compatible Hardware	PTZ Dome	Samsung Techwin PTZ Dome Pelco-D/P, Panasonic (WV-CS854)
	DVR	Samsung Electronics (SCC-643/641)
	Receiver	SVR-3200/1680C/1660C/1645/960C/945/940/450
	Matrix	SMX-25632
Control Capacity		Max. 255
Auto Surveillance		Tour, Group, Swing, Preset etc. Selection of PTZ, DVR : Each ID input
Communication	Communication Set	RS-485/422 (Remote control 1.2Km above possibility)
	Transmission Method	Asynchronous serial, 1 Start bit, No parity, 1 Stop bit
	Baud Rate (bps)	Half duplex / Full duplex 4,800 ~ 38,400bps (9,600bps Promotion) Sub controller communication 57,600bps fixation
Operating Temperature		0°C ~ +40°C (+32°F ~ +104°F)
Operating Humidity		10% ~ 75%
Dimensions (WxHxD)		400 x 180 x 88mm (15.75" x 7.09" x 3.46")
Weight		1.5Kg (3.31 lb) (Without adapter)
Certifications		FCC (Class A), CE (Class A)

SCC-1000

PTZ Control Keyboard

Overview

The SCC-1000 lets the operator have simultaneously control of up to 255 PTZ cameras. It offers superior system compatibility with support for multiple protocols.

Features

- Controls up to 255 PTZ cameras
- Superior system compatibility : Multi protocols supports
- OSD Menu, 3D joystick control
- RS-485 and RS-422 Compatibility

Dimensions

Unit : mm (inch)

Technical Specifications

SCC-1000		
LCD Display	16 x 2 Character LCD	
Speed Control	Joystick (3-axis Twist Zoom)	
Compatible	PTZ Dome	Samsung Techwin PTZ Dome
		PELCO-D/P, Panasonic, Vicon, AD, Honeywell, Samsung Electronics
Hardware	Zoom Camera	SDZ-375/370
	Receiver	SRX-100B
Control Capacity	Up to 255 Cameras (Suitable for Mid-, Large-size System)	
Communications	Standards	RS-485 / RS-422 (Remote Control : 1Km)
	Transfer Speed	2,400 ~ 57,600bps
Voltage	12V DC, 140mA	
Operating Temperature	0°C ~ +45°C (+32°F ~ +113°F)	
Operating Humidity	10 ~ 70%	
Dimensions (WxHxD)	280 x 180 x 100mm (10.63" x 7.09" x 3.94")	
Weight	Approx. 0.7Kg (1.54 lb) (Without Adapter)	

System Configuration

SDQ-420

Dual Color Quad Switcher

Overview

The SDQ-420 is a dual color quad that can receive a maximum of 8 cameras and display 4 cameras at a time. The unit provides multiple screens in real time display modes with high image resolution and individual freeze function. It is a powerful and cost effective device that can be used with quick OSD functions.

Features

- Two page quad switching (8 Channels camera input)
- High resolution image (720 x 576)
- Multiple displays and action on alarm support
- Individual freeze function
- Adjustable date & time display
- Enhanced record and playback with 2X digital zoom

Dimensions

Unit : mm (inch)

Technical Specifications

	SDQ-420
Power Source	12V DC / 4A
Power Consumption	10W (Approximately)
Video Input	8 BNC
Looping Output	BNC / Switchable termination / 75 Ω or Hi-z
Monitor Output	1 BNC
VCR In / Output	2 BNC
Alarm Input	8 Channels / 25Pins D-sub
Alarm Output	Relay contact rating (Resistive) - 0.5A 120V AC or 1A 24V DC
Alarm Duration	Programmable 1 to 99sec / Default 10sec
Power Connection	DC Jack
Video Standard	625Lines, 50field/sec
Video Resolution	720(H) x 576(V) pixels full screen
Digital Memory	8 Bit luma / 256 Shades of gray, 24 Bit luma / 16 Million colors
Display Rate	True real time, 30 frames per second
Quad Display	360(H) x 288(V) pixels quad screen
Monitor Output	1.0Vp-p composite, 75 Ω
VCR Input	1.0Vp-p composite
Digital Zoom	2X Digital zoom for playback
Operating Temperature	0°C ~ +50°C (+32°F ~ +122°F)
Storage Temperature	-40°C ~ +60°C (-40°F ~ +140°F)
Operating Humidity	10% ~ 90% (Non-condensing)
Dimensions (WxHxD)	280 x 44 x 200mm (11.02" x 1.73" x 7.87")
Weight	1.5Kg (3.31 lb)

System Configuration

SMX-25632

256 Input / 32 Output Video Matrix Switcher

Overview

The SMX-25632 matrix switcher provides switching and control for up to 256 video inputs and 32 monitor outputs using SME-25632 matrix extension bays. The SMX-25632 can be controlled from the SCC-3100A system controller. It ensures that users can produce reliable and efficient management of medium to large-scale video security systems.

Features

- Max. 256 camera input, 32 monitor output
Connects up to 3 extension units (SME-25632), 16 video cards (SMV-25632)
- Supports 32 alphabet letters
- Controllable by a system keyboard (SCC-3100A)
- Built-in power supply

Dimensions

Unit : mm (inch)

SMX-25632

SME-25632

SMV-25632

Technical Specifications

	SMX-25632 (Matrix CPU)
System	16 Video card slots, Controller interface
Features	256 x 32 Video matrix control Video extension unit connector (Up to 3 sets)
OSD	Displays 16 Korean characters or 32 alphabet letters, numbers, or symbols Date / Time display
Camera I/O	64 Camera input, 32 Monitor output (Max. 32 monitor output with 16 video cards)
Communication	TTL Level
Power Consumption	Max. 120W
Operating Temperature	0°C ~ +40°C (+32°F ~ +104°F)
Operating Humidity	30% ~ 90% RH
Dimensions (WxHxD)	430 x 256 x 350mm (16.93" x 10.08" x 13.78")
Weight	15Kg (33.07 lb)
Certifications	CE (Class A)

	SME-25632 (Matrix Extension Bay)
Features	64 Camera input control (Connectable up to 3 units)
Power Consumption	Max. 50W
Operating Temperature	0°C ~ +40°C (+32°F ~ +104°F)
Operating Humidity	30% ~ 90% RH
Dimensions (WxHxD)	430 x 177 x 350mm (16.93" x 6.97" x 13.78")
Weight	10Kg (22.05 lb)
Certifications	CE (Class A)

	SMV-25632 (Matrix Video Card)
Features	2 Monitor output Time generator, I/O generator, Video I/O selector, Video sync correction
OSD	32 Alphabet letters or 16 Korean characters (Combinations allowed) Freeze On / Off, Year / Month / Date / Hour / Minute / Second
Power Consumption	Max. 9W
Operating Temperature	0°C ~ +40°C (+32°F ~ +104°F)
Operating Humidity	30% ~ 90% RH
Dimensions (WxD)	293.7 x 187mm (11.56" x 7.36")
Weight	0.3Kg (0.66 lb)

MONITOR TERMS & FEATURES

Vivid Images as if they were in front of you...

If you are using high resolution Samsung Techwin cameras and DVRs, the monitors used in the system need to be capable of reproducing the added resolution. Samsung Techwin Monitors are engineered to match the high performance of our cameras and recording systems.

Samsung Techwin has a complete LCD monitor range to cover all security applications. To assist in choosing the correct monitor the range is divided into four distinct product families. Large-scale security systems and central monitoring stations are covered by the STM-42L and STM-32L models. The LA series of professional fully featured monitors are ideal for multi-display control rooms, while the LM series of utility monitors are designed for a wide variety of general applications. For cost conscious applications, the LP series of standard monitors are the ideal choice.

All Samsung Techwin's LCD monitors offer outstanding video performance, exceptionally high-resolution of SXGA (1280 x 1024) and WXGA (1366 x 768), superior contrast ratios and fast response times making them ideally suited for high-performance DVR applications. All monitors featured in our product line-up automatically select the input voltage, frequency and television standard (NTSC / PAL).

Resolution

A measure of the ability of a camera or television system to reproduce detail. Typically refers to the number of picture elements that can be reproduced with good definition.

S-Video

Super Video is both a tape recording standard and a video transmission and interface standard. It offers much better horizontal resolution up to 400TV lines. This is mainly due to the color separation techniques. S-Video is usually associated with Y/C separated signals.

Contrast Ratio

Contrast ratio refers to the difference in light intensity between the whitest white and blackest black the monitor is able to produce. The higher the ratio, the better the color representation of the monitor. e.g. a 500:1 contrast ratio is significantly better than a 150:1 contrast ratio. A higher contrast ratio also means the monitor is better able to differentiate fine details in color.

Response Time

Response time refers to the amount of time it takes for an liquid crystal cell (pixel) to switch from active to non-active, and is measured in milliseconds (ms). This is very important for applications that require fast moving (changing) images like video playback. An average LCD monitor has a response time of 25-40ms, which will result in significant image trailing while watching videos.

Viewing Angle

Viewing Angle describes the maximum angle at which an LCD monitor can reliably be viewed. Viewing angles have greatly improved over the years, and now nearly all LCD monitors support viewing angles of 150 degrees and above, which is more than acceptable in ordinary use. The best LCD monitors offer 160 degree viewing angle, making them nearly as good as CRT monitors.

STM-42L/32L

42", 32" TFT-LCD Color Monitor

Overview

Samsung Techwin's newest STM-42L and STM-32L monitors are a fully featured solution for professional surveillance applications. These units deliver exceptionally sharp, crisp pictures with a brightness of 500cd/m², contrast ratio of up to 3,000 : 1 and a response time of 8ms. Moreover, these wide screen, slim line units provide outstanding quality images. Both LCD models feature real glass screens protecting the LCD panels, making them easy to clean without scratching.

STM-42L

STM-32L

Features

- 1,366 x 768@60Hz resolution
- 1,100 : 1 High contrast ratio (STM-42L)

STM-19LA/17LA

19", 17" TFT-LCD Color Monitor

Overview

Samsung Techwin's new STM-19LA and STM-17LA monitors are a fully featured solution for professional surveillance applications. These units deliver exceptionally sharp, crisp pictures with a brightness of 300cd/m², contrast ratio of up to 1,000 : 1 and a response time of 5ms. Moreover, these compact, slim units can be used standalone with their own desk stand or can be wall mounted by using our optional STM-LM wall mount. Both LCD models feature real glass screens protecting over the LCD panels, making them easy to clean without scratching.

Features

- 1,280 x 1,024@60Hz resolution
- 800 : 1 High contrast ratio (STM-19LA)
1,000 : 1 High contrast ratio (STM-17LA)
- 250cd/m² High brightness (STM-19LA)
300cd/m² High brightness (STM-17LA)
- 5ms Response time
- 2 BNC loop through, S-Video with loop-through, VGA inputs
- Built-in speakers
- Protective glass over LCD panel
- Included power supply : 12V DC, 4.16A

Dimensions

Unit : mm (inch)

Technical Specifications

	STM-19LA	STM-17LA

STM-19LP/17LP

19", 17" TFT-LCD Monitor for DVRs

Overview

Samsung Techwin's STM-19LP and STM-17LP monitors deliver exceptionally sharp, crisp pictures with a brightness of 300cd/m², a contrast ratio of 1,000 : 1 and a response time of 5ms. The LCDs are slim, lightweight, and require less power and space. Moreover, these units can be installed on a wall with optional wall mounts (STB-LM) with ease enabling high space efficiency. Both LCD models feature real glass screens protecting the LCD panels, making them easy to clean without scratching.

Features

- 1,280 x 1,024@60Hz resolution
- 800 : 1 High contrast ratio (STM-19LP)
1,000 : 1 High contrast ratio (STM-17LP)
- 250cd/m² High brightness (STM-19LP)
300cd/m² High brightness (STM-17LP)
- 5ms Response time
- RGB Input support for DVRs
- Protecting glass
- Included power supply : 12V DC, 4A
